In her book, "Beginnings", author Lori Ann Watson teams up with illustrator Shennen Bersani to recreate the mysteries of growth and birth through the eyes of a child.

The book cover shows a collage of the different forms of creation, while a newborn peacefully dreams of Paradise. These images portrait the theme of the book.

Using her primary school teaching experience, Ms.Watson shares with the young readers the beginning of life using elements from the earth, the sky, the animals, and ending with the greatest of all creations; human beings. The vividly eye-catching pictures, in harmony with the story, will captivate the attention of any pre-schooler, primary school child, and even adults.

This is a simple and enchanting read-aloud children's book. Every page is an awe of beauty and invites the reader to become part of the story. Even if the child does not know how to read yet, the pictures provide the key elements for him or her to understand the story.

I highly recommend this book to parents and to those individuals involved in the early education of children. It is a great tool to teach them about how life starts from its "Beginnings."

How nice, Tannia! I love that review. It sounds so heartfelt! Thank you, thank you, thank you!!!!!!! (Sent May 30, 2009)

Tannia, I reread your review of Beginnings on Amazon just now; it really is so pretty. I know it will be a big help; you really brought out the best points of the book. Thank you so much!

Lori

Thanks, Tannia, this looks like an outstanding review. Thank you again for your support of Beginnings and Pauline Books & Media.

Best regards,

Sally
